CIN : U74140DL2013PTC252178

E-Mail ID: info@marmosolutions.com

Office hours: Monday to Saturday (10AM-6PM)

1. Product Description:

Marmoguard is a high-performance marble densifier specially formulated to increase the hardness and reduce the porosity of natural marble. By deeply penetrating the surface, it strengthens the stone, improves durability, and enhances its resistance to moisture. Marmoguard is ideal for use on rough and unpolished marble surfaces to optimize absorption and effectiveness.

TECHNICAL DATA SHEET

Product Name: MARMOGUARD

2. Key Features:

- **Increased Hardness:** Improves the overall strength of marble, making it more resistant to wear and tear.
- **Reduced Porosity:** Decreases the porosity of marble, offering improved resistance to water absorption and staining, though it does not render the surface fully stain-repellent.
- **Enhanced Durability:** Extends the lifespan of marble, making it more resilient to physical and chemical damage.
- **Simple Application:** Can be applied using surface or dipping methods for versatility in treatment.

Product Name: MARMOGUARD

3. Technical Specifications:

- **Appearance:** Clear liquid
- **pH Level:** 7-9 (neutral)
- **Specific Gravity:** 1.02 - 1.05 g/cm³
- **Solubility in Water:** Soluble
- **Coverage:** 5-10 sq. ft per liter in dipping and 50-100 sq. ft. per liter, depending on surface condition and porosity
- **Drying Time:** 30-60 minutes for surface absorption (depending on environmental conditions)
- **Curing Time:** 24 hours for initial use, best results after 28 days

TECHNICAL DATA SHEET

Product Name: MARMOGUARD

4. Application Instructions

Surface Preparation:

Ensure the marble surface is clean, dry, and free of any dirt, oils, or other contaminants. Use a pH-neutral cleaner for best results.

Application Method:

- Note: Always apply Marmoguard to rough and unpolished surfaces to optimize absorption.

a. Dipping Application:

- Fully submerge the marble stone in Marmoguard for 12 to 24 hours, depending on the porosity of the marble.
- Remove the stone and allow it to air dry naturally.

b. Surface Application:

- Apply Marmoguard using a clean cloth, sponge, or applicator, ensuring even coverage.
- Allow the product to penetrate *until the marble is fully saturated. This may take *30-60 minutes, depending on the porosity of the marble.
- Wipe off any excess product with a clean, dry cloth to avoid surface buildup.

MARMO SOLUTIONS
MARBLE & TILE SOLUTION PRODUCTS

TECHNICAL DATA SHEET

Product Name: MARMOGUARD

5. Application Instructions

Curing Time:

• Allow the treated surface to cure for a minimum of 24 hours before subjecting it to heavy use.

• Best Results: Maximum marble hardness and reduced porosity will be achieved after 28 days of curing.

Performance Note:

Marmoguard significantly reduces porosity but does not fully prevent staining. Regular maintenance and care are recommended to preserve and extend the treated marble's longevity.

5. Storage and Handling

• **Storage Temperature:** Store in a cool, dry place between 5°C and 30°C (41°F to 86°F).

• Shelf Life: 12 months from the date of manufacture when stored in its original sealed container.

• Packaging: Available in 1 liter, 5 liters,20 liters and 40 liters containers.

6. Environmental Considerations

• Dispose of unused product and container according to local regulations.

Do not pour the product into drains, waterways, or soil.

6.DO'S & DON'TS

- **DO'S**

- Do ensure stone surfaces are clean, dry, and free from dust, oil, wax, or sealers before dipping.
- Do use the product as supplied (ready to use – no dilution required).
- Do fully immerse the stone for 24 hours, depending on porosity.
- Do allow stones to air dry for at least 24 hours after dipping.
- Do ensure proper ventilation during application and drying.
- Do wipe off any excess product from the surface before drying to avoid residue marks.

- **DON'TS**

- Do not use on polished, glazed, or non-absorbent stone surfaces.
- Do not dilute the product with water or other chemicals.
- Do not apply on wet or moisture-saturated stones.
- Do not shorten the immersion time for highly porous stones.
- Do not use acidic or harsh cleaners after treatment.
- Do not apply in freezing temperatures or direct intense sunlight.
- Do not expect surface gloss enhancement (this is a penetrating treatment, not a coating).
- Do not seal stones that already contain trapped moisture.
- Do not mix with other sealers or coatings.

7. Safety Information

- Personal Protective Equipment (PPE): Wear appropriate protective gear, such as gloves and safety goggles, when handling Marmoguard.
- **First Aid Measures:**
- Skin Contact: Wash thoroughly with soap and water.
- Eye Contact: Rinse cautiously with water for several minutes. Seek medical advice if irritation persists.
- Inhalation: Move to fresh air immediately. Seek medical attention if symptoms occur.
- Ingestion: Do not induce vomiting. Rinse mouth and seek medical attention immediately.
