CIN : U74140DL2013PTC252178

E-Mail ID: info@marmosolutions.com

Office hours: Monday to Saturday (10AM-6PM)

1. Product Description:

Marmomastic-Gel/Clear is a high-strength, two-component polyester-based joint and crack filler designed for natural and artificial stones. It provides excellent adhesion, fast curing, and a smooth, gel-like consistency for easy application on vertical and horizontal surfaces. It can be polished to match the surrounding stone and is resistant to water and mild chemicals after curing. Marmomastic-Gel/Clear is available in a clear version for seamless, invisible repairs on light-colored stones.

TECHNICAL DATA SHEET

Product Name: MARMOMASTIC-GEL/CLEAR

2. Product Specifications:

Base: Polyester resin with hardener

Appearance: Gel / Clear

Mixing Ratio: 100:2 (Mastic: Hardener by weight)

Gel Time (25°C): 35 - 60 minutes

Tack-Free Time (25°C): 60 - 80 minutes

Full Curing Time: 12 - 24 hours

Compressive Strength: > 60 MPa

Flexural Strength: > 25 MPa

Bond Strength: > 2.5 MPa

Density: 1.2 - 1.4 g/cm³

Application Temperature: 15°C to 35°C

Product Name: MARMOMASTIC-GEL/CLEAR

3. Application Guidelines:

Surface preparation is essential for optimal adhesion. The surface must be clean, dry, and free from dust, grease, or loose particles. If needed, use Marmocleaner-Mild for effective cleaning.

For mixing, take the required amount of Marmomastic-Gel/Clear and add 2% hardener by weight. Mix thoroughly until a uniform consistency is achieved.
Apply the mixture immediately using a spatula or trowel, ensuring complete filling of the crack or joint. Remove excess material before curing. Curing takes approximately 12-24 hours before sanding or polishing.

4.DO'S & DON'TS

- **DO'S**
- Do ensure that all bonding surfaces are clean, dry, and free from dust, oil, grease, wax, or loose particles before application.
- Do mix the resin and hardener thoroughly in the recommended ratio until a uniform colour and consistency are achieved.
- Do use clean mixing tools and containers to prevent contamination.
- Do carry out a small trial application before beginning large-scale work.
- Do apply the mixed product within its recommended working (pot life) period.
- Do clamp or support bonded materials until the chemical has completely cured.
- Do remove excess product immediately before it hardens.
- Do store the product in a cool, dry place with the containers tightly closed after use.

MARMO SOLUTIONS
MARBLE & TILE SOLUTION PRODUCTS

- **DON'TS**
- Do not alter the recommended resin-to-hardener mixing ratio.
- Do not apply the product on wet, damp, or contaminated surfaces.
- Do not use the product after its pot life has expired.
- Do not mix with bleach, acids, alkalis, or other cleaning chemicals.
- Do not expose the uncured adhesive to water or excessive moisture.
